

PlayPosit Step-by-Step

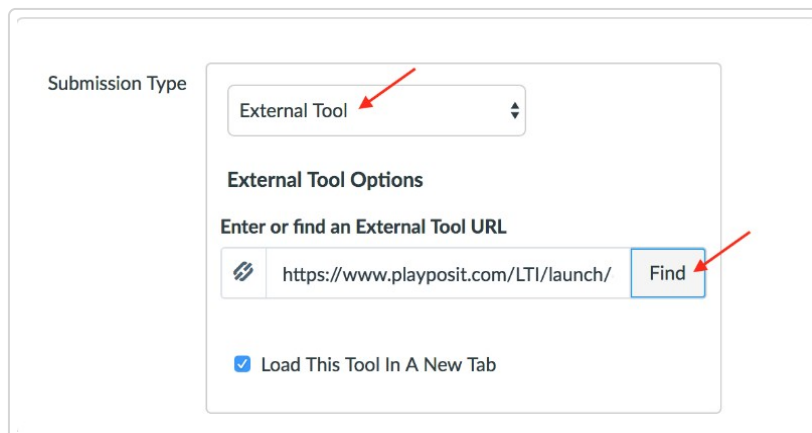

Creating an Assignment Using PlayPosit in Canvas

PlayPosit is integrated into our Canvas environment. Follow the steps below to add PlayPosit to your course and begin building an interactive video (bulb).

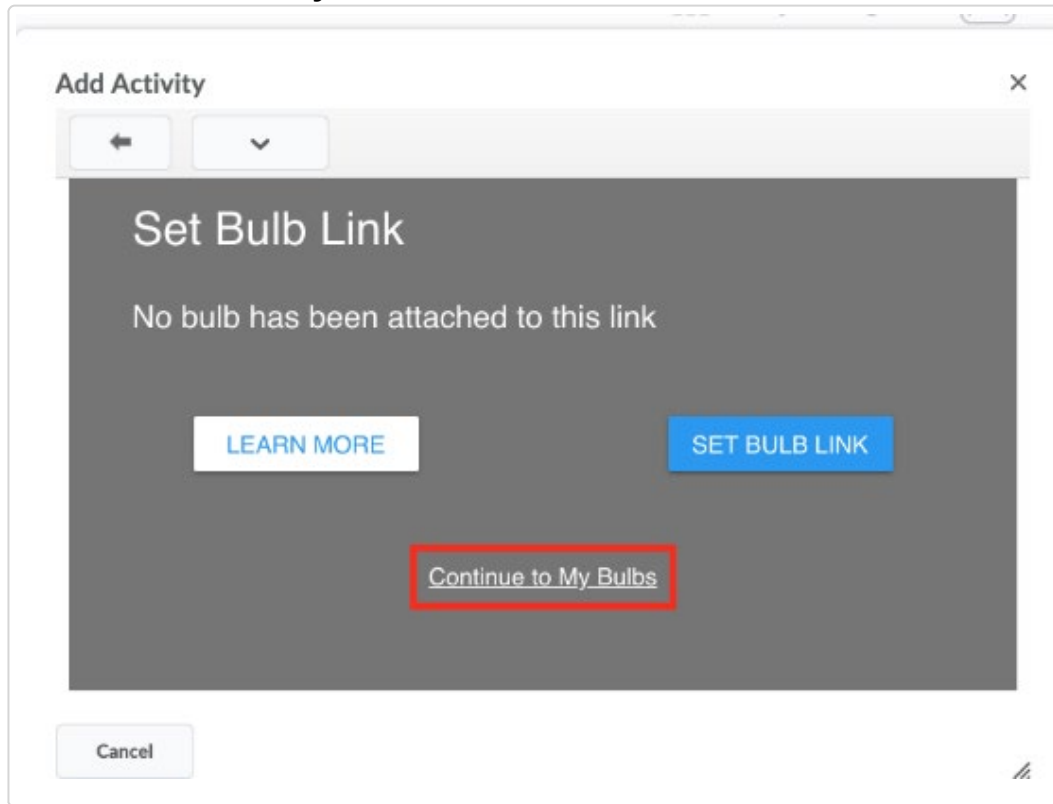

1. **Login to Canvas** and navigate to the course you would like to connect to PlayPosit.
2. **Select Assignments** from the left column menu and add a new assignment.

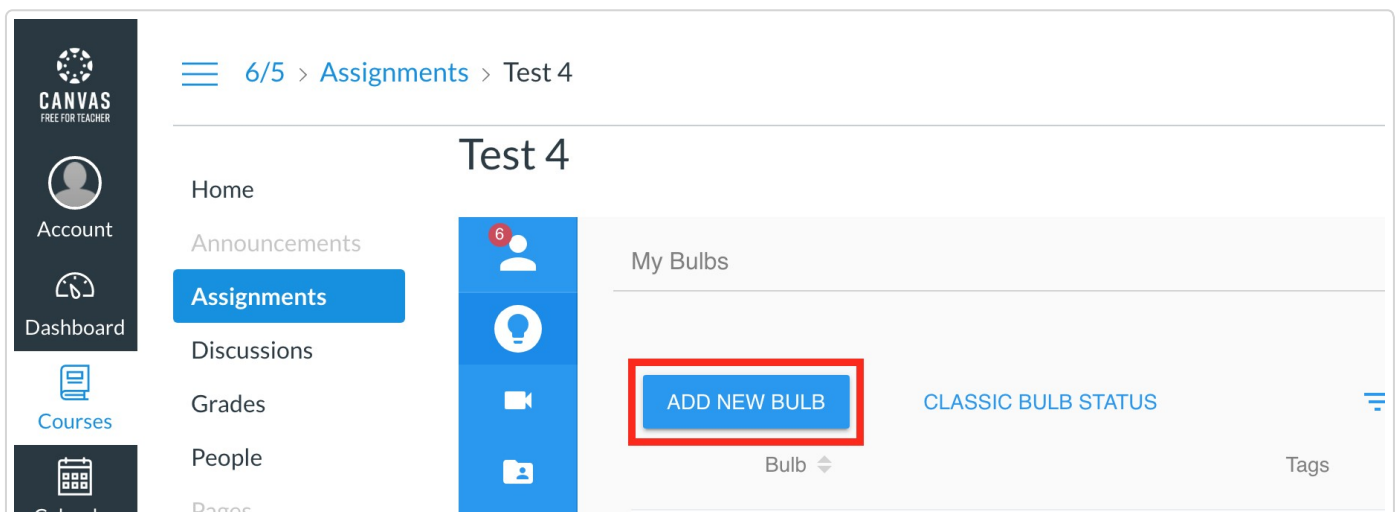

3. Name your assignment in the **Assignment Name** field.
4. Scroll down to **Submission Type**.
 - a. **Select External Tool**
 - b. Find and select **PlayPosit** from the pop-up menu. **NOTE** the list is in alphabetic order.

A screenshot of the 'Submission Type' form in Canvas. The 'External Tool' option is selected in the dropdown menu, indicated by a red arrow. Below the dropdown, the 'Find' button is highlighted with a red arrow. The form also includes a text input field for the URL 'https://www.playposit.com/LTI/launch/' and a checkbox labeled 'Load This Tool In A New Tab' which is checked.

5. Click Continue to My Bulbs.

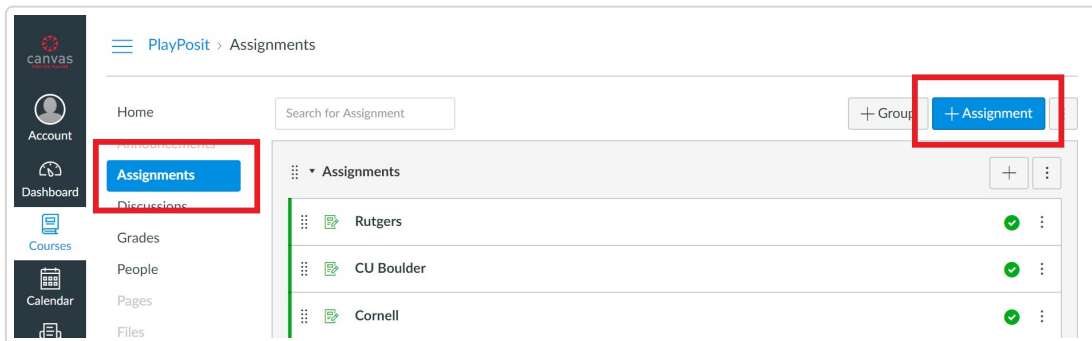

6. You have now authenticated into your PlayPosit account. Click Add New Bulb to begin building your own video.

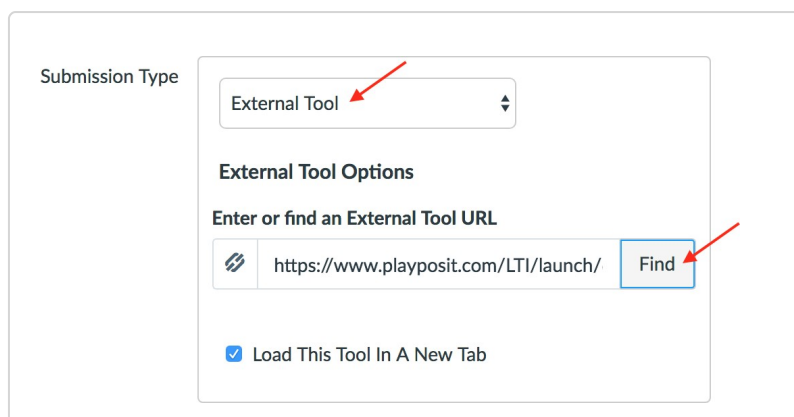

Assign a graded Bulb to students

Playposit Bulbs must be linked to Canvas as assignments in order to auto-export grades into the Canvas Gradebook. **NOTE:** Grade export is not supported for Modules, Pages, etc., but data will still be collected on the PlayPosit monitor page.

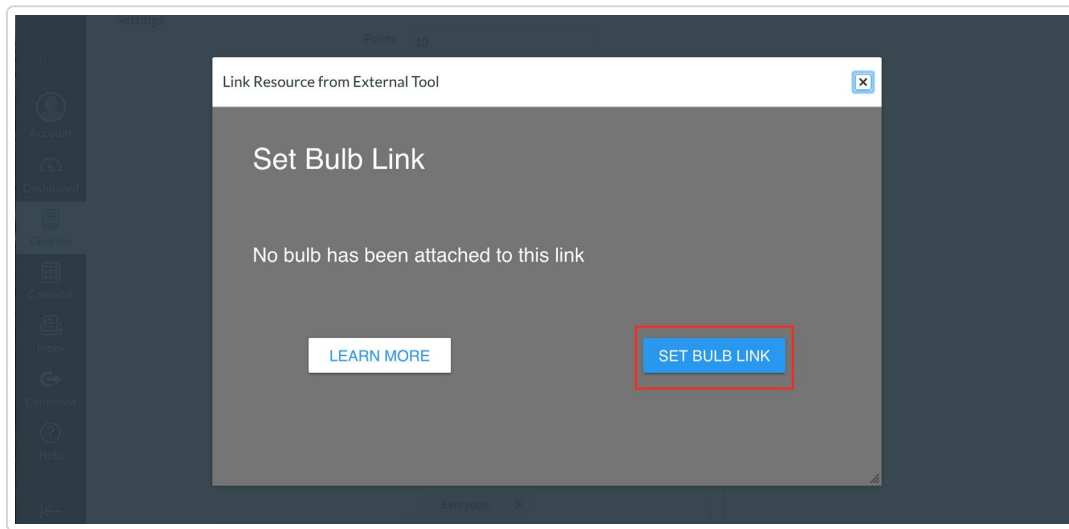

1. Login to Canvas and navigate to the course you would like to connect to PlayPosit.
2. Select Assignments from the left column menu and add a new assignment.

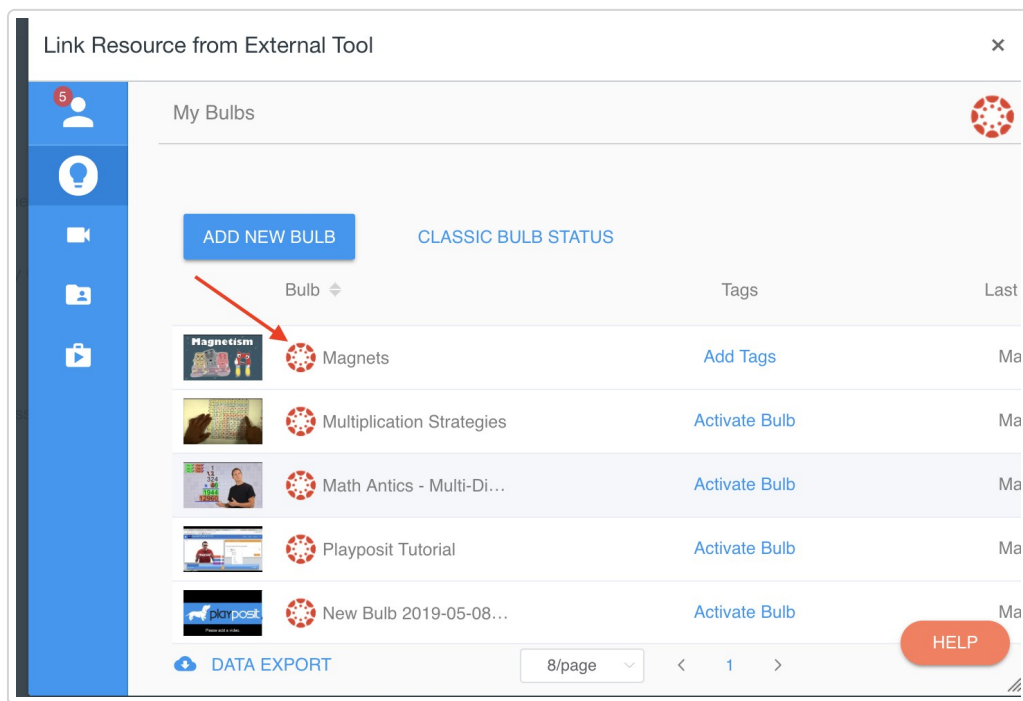

3. In the Assignment Name field, enter the name of your lesson.
 - a. (Optional, but recommended) Add a Description to provide supplemental instructions to students.
 - b. (Optional, but recommended) Complete fields for Points, Assignment Group and Display.
4. Scroll down to Submission Type.
 - a. Select External Tool.
 - b. Find and select PlayPosit from the pop-up menu.

5. Click Set Link to access your bulb library.

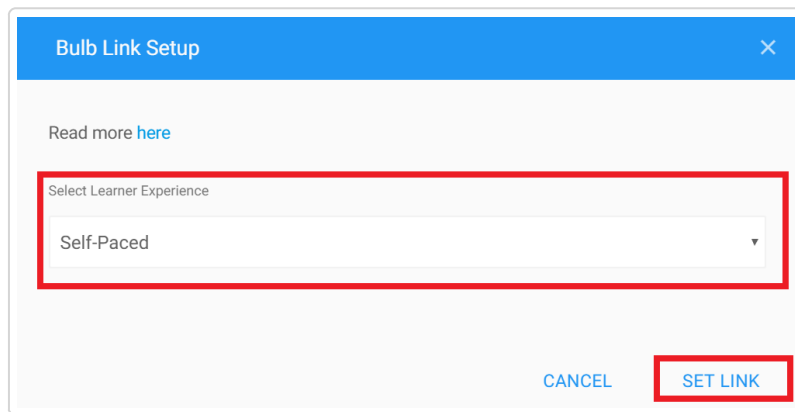

6. Find the bulb you want to link to this assignment and click the Canvas icon.

7. Select the learner experience and click Set Link:

- Self-paced - Choose this option if you want learners to take the Bulb individually, on their own device, at their own time (most commonly used).
- Broadcast - Choose this option if you want learners to complete the bulb synchronously in class .

Select Learner Experience

Self-Paced

CANCEL SET LINK

The 'Bulb Link Setup' dialog box has a blue header bar with the title and a close button. Below the header, there is a link to 'Read more here'. A red rectangle highlights the 'Select Learner Experience' dropdown menu, which currently shows 'Self-Paced'. At the bottom right, another red rectangle highlights the 'SET LINK' button, while the 'CANCEL' button is to its left.

8. When you are redirected to Canvas, click Select on the pop-up menu.

Configure External Tool

Select a tool from the list below, or enter a URL for an external tool you already know is configured with Basic LTI to add a link to it to this module.

Canvas Data LTI
Portal for managing hosted data credentials

PlayPosit Interactive Video
PlayPosit is interactive video engagement.

Roll call
A very handy tool for creating seating charts and keeping track of attendance.

URL:

Cancel Select

The 'Configure External Tool' dialog box features a title bar with a close button. It contains a list of tools: 'Canvas Data LTI', 'PlayPosit Interactive Video' (highlighted with a grey background and a magnifying glass icon), and 'Roll call'. Below the list is a text input field for a URL, which contains 'https://www.playposit.com/LTI/I.'. At the bottom, there are two buttons: 'Cancel' and 'Select'. A red arrow points to the 'Select' button.

9. Set a Due Date and click Save & Publish.

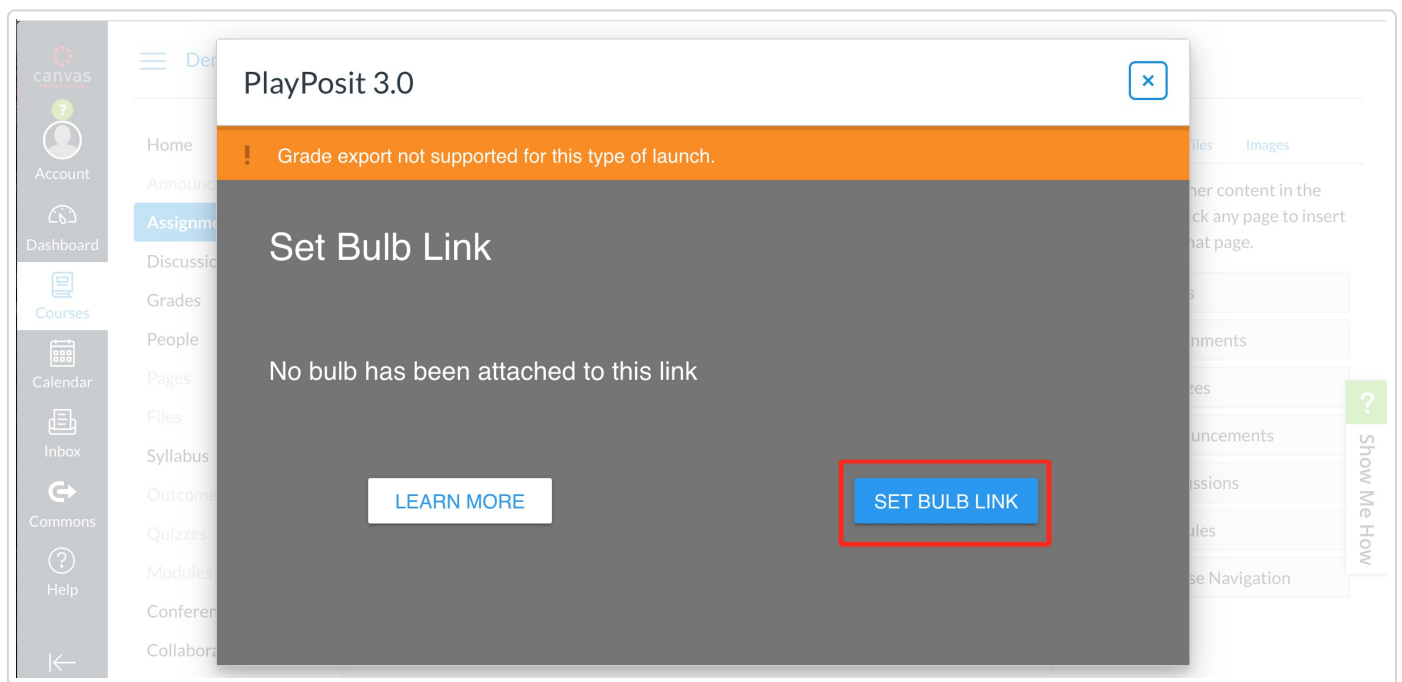

Assign a non-graded Bulb to students

NOTE: If you follow the instructions below for assigning a non-graded Bulb to students, grades will **not be auto-exported into the Canvas Gradebook.** However, data analytics will still be recorded and visible to the instructor on the PlayPosit assignment's Question-by-Question Breakdown dashboard.

1. Create a new Assignment, Module, Page or Discussion.
2. Select the PlayPosit CIM from the rich text editor.

3. Click Set Link to access your bulb library.

4. Find the bulb you want to link and click the Canvas icon.

SET LINK

- Make sure Submission Type is set to No Submission.
- Set a Due Date and click Save & Publish.

Monitor learner responses

1. From Canvas, click on the assignment for which you want to view data. This will open Manage Bulb Link, with the bulb you have attached.
2. Click Monitor to view learner analytics.

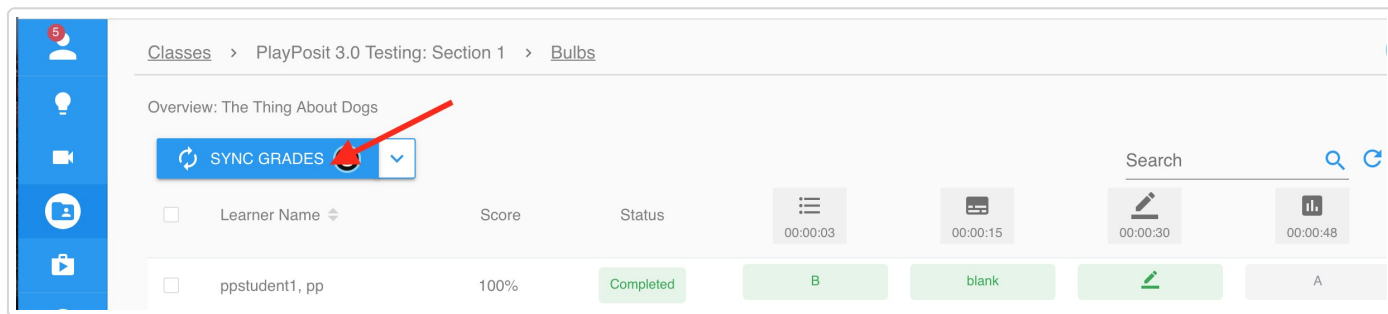

Sync scores into Canvas Gradebook

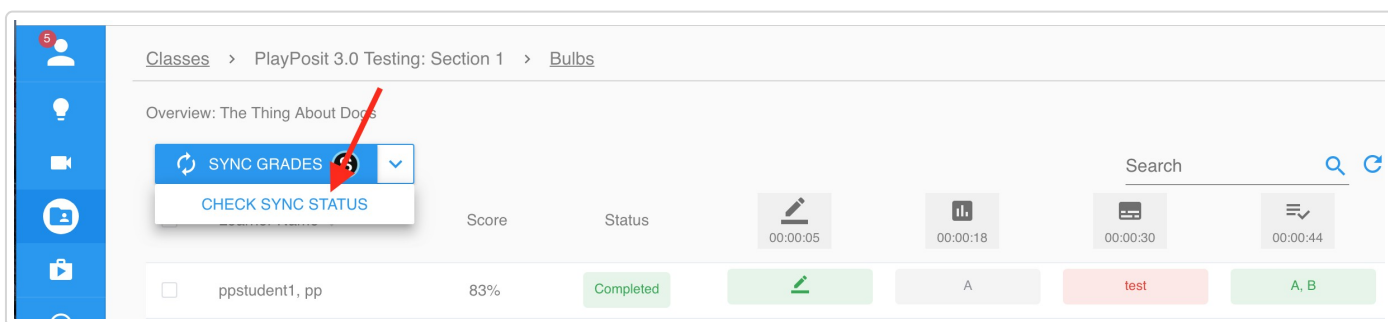

If your Bulb only includes auto-graded questions (multiple choice, check-all-that-apply, fill-in-the-blank), then grades will be automatically exported into the Canvas Gradebook.

When you have finished grading free-response questions or edited grades for auto-graded questions, you will need to sync changes with the Canvas Gradebook. To do this:

1. Navigate to the Monitor page of the assignment you want to grade.

4. Optionally, click Check Sync Status to check the status of grade sync, but note that it may take a few minutes to push all updated scores to the Canvas Gradebook.

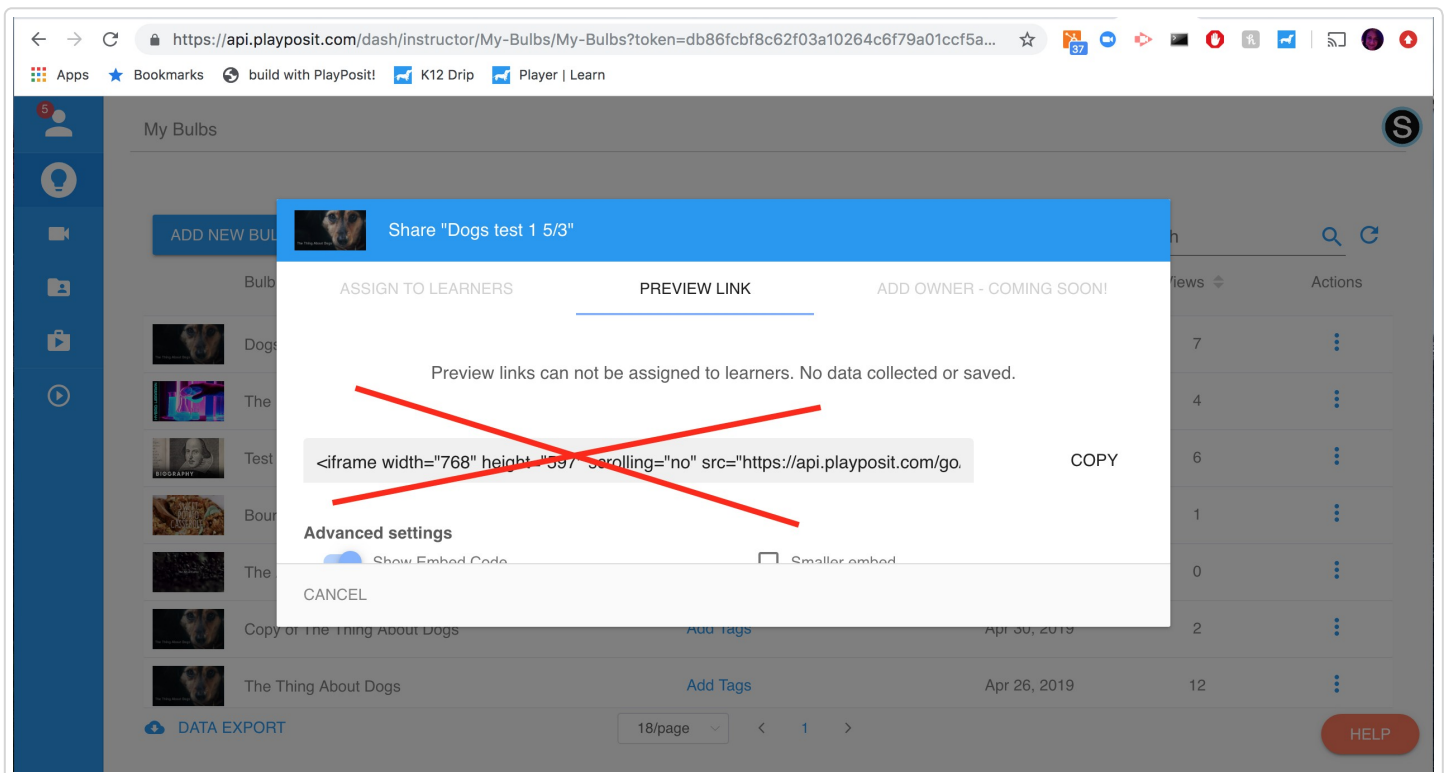

Course copy

PlayPosit supports Canvas's course copy feature. This means:

- All PlayPosit links and Bulbs will transfer to the new course.
- If any students are retaking the course, previous scores will be reset automatically.

Embedding Bulbs

PlayPosit/Canvas LTI integration **does not** support embedding Bulbs using an embed code.

If instructors choose to use the embed code:

- Students will be prompted to sign into PlayPosit with a username/password.
- Grades will not auto-sync from PlayPosit to Canvas.
